

Sweet Scoops Delight

A website presentation

Presented By: Pamotongan | Patagnan | Magdamit | Bautista

Project Overview

Our team developed a comprehensive and visually appealing website for a local family-run ice cream shop, aiming to enhance their online presence and streamline customer interactions.

The website showcases the shop's diverse offerings, including various ice cream flavors, drinks, and pastries, making it easy for customers to explore the menu, place orders, and engage with the brand.

Client

The client is a beloved family-run ice cream shop with a rich history and a strong connection to the local community. Established over three decades ago, the shop has been passed down through generations, maintaining a tradition of crafting unique and delicious ice cream flavors using secret family recipes. In addition to ice cream, the shop offers a variety of drinks, including smoothies, milkshakes, and specialty coffees, as well as an assortment of freshly baked pastries. The family prides itself on using high-quality ingredients, supporting local suppliers, and providing exceptional customer service.

Target Audience

The website for the family-run ice cream shop is designed to appeal to a broad audience, ensuring a delightful online experience for everyone. The target user groups include:

- **Families**
- **Young Adults and Teenagers**
- **Working Professionals**
- **Local Community Members**
- **Tourist**
- **Food Enthusiasts**

Objectives

- **Enhance Online Presence:** Create an attractive and user-friendly website that reflects the brand's identity and values.
- **Menu Showcase:** Design a comprehensive menu section that highlights all ice cream flavors, drinks, and pastries with appealing images and descriptions.
- **Online Ordering:** Implement an intuitive online ordering system for customers to easily place pickup or delivery orders.
- **Customer Engagement:** Integrate features that encourage customer interaction, such as a blog, social media links, and a newsletter sign-up.
- **Mobile Responsiveness:** Ensure the website is fully responsive and functions seamlessly across all devices, including desktops, tablets, and smartphones.

Development Process

This shows how the process of development is made by the team.

- 1. Requirement Gathering:** Collaborated with the client to understand their vision, requirements, and target audience.
- 2. Design and Prototyping:** Created wireframes and prototypes to establish the website's layout, design elements, and user flow.
- 3. Development:** Implemented the design using modern web development technologies, focusing on responsiveness, performance, and accessibility.
- 4. Testing:** Conducted thorough testing to identify and fix any bugs or issues, ensuring the website functions smoothly across different devices and browsers.
